

Flax Mechanical Packing

AP STYLE 714

**CURTISS -
WRIGHT**

AP Style 714

Style 714 is braided from high quality, long line flax fibers, free from coarse or short fibers. Style 714 is lubricated with a PTFE dispersion and has a low frictional value. The result is an excellent water service packing well suited to most industries.

Style 714 is designed for cold water on reciprocating and rotary pumps. Applications include brine, cold water, and cold oil service. Style 714 is available as individual rings, combination sets, and in bulk.

Typical Properties

Maximum Temperature
250 °F
Maximum Shaft Speed
1,500 FPM
Ph Range
4-9
Construction
Square Braid
