

Tape Textile Products

AP STYLE 941

**CURTISS -
WRIGHT**

AP Style 941

Style 941 is manufactured from rubberized fiberglass cloth, folded over a fiberglass rope core, and cemented to form a bulb and tail structure. This construction allows the tape to be used as a high temperature O-ring held in place by a fabric tail assembly.

Recommended Uses

For use on furnace doors, structural seams and precipitator equipment.

Typical Properties

Maximum Temperature
500 °F for rubberized 1000 °F or dry fiberglass
Standard Bulb
3/8" diameter and up
Overall Width
1" and up
