

Power & Process Products and Services

About Curtiss-Wright

Curtiss-Wright is a leading supplier of ASME Code, safety-related, NQA-1 and commercial grade fasteners for the U.S. Department of Energy, commercial nuclear and fossil power plants, the Department of Defense, and the industrial market. We are recognized as an industry leader in providing precision machined components, safety-related construction products, commercial grade dedication, and tensioning solutions with unmatched customer service and quality.

Fasteners for Any Applications

Curtiss-Wright offers a comprehensive range of products and services that support the U.S. Department of Energy's Office of Environmental Management and Office of Nuclear Energy, the National Nuclear Security Administration, and the national laboratory complex. Our innovative bolting solutions and ASME Code, NQA-1, safety-significant, safety-related, and commercial grade fasteners have been used in commercial operating reactors for over 55 years, sustaining the safe and reliable operation of operating nuclear reactors throughout the world. We continuously provide fastener solutions and experience in support of new construction, aging equipment management, component replacement, and obsolescence issues.

Key Benefits

- ASME NQA-1 Certified
- Compliant with the Buy American Act (FAR-52.225-11)
- Meets the Fastener Quality Act of 1999 (PL-106-34)
- ISO 9001 without Design Certified
- Anti-Fraud / Falsification Procedures
- Suspect / Counterfeit Part Prevention Procedures
- ASME Sections III and XI Certified
- Safety Related 10CFR50, Appendix B; 10CFR20
- Commercial Grade Dedication Program
- Material Traceability:
 - Mill
 - Lot Number
 - Heat Number
 - Heat Codes
- Diversified Spend Program
