AP STYLE 444

**CURTISS -  
WRIGHT**

## AP Style 444

Style 444 Oilrite is a superior grade of vegetable fiber sheet manufactured from a combination of plant fibers and chemical additive. Oilrite effectively resists the solvent action of petroleum products. It remains tough and durable through a long service life but is pliable and compressible for secure installation.

Style 444 is a resilient material for light bolt loading applications, and is recommended for oil, gasoline and most solvents.

Style 444 is available in sheets, bulk rolls, and pre-cut gaskets.

## Typical Properties

<b>Maximum Temperature</b>
250 °F
<b>Tensile</b>
2,000 psi
<b>Compression</b>
25–40% maximum
<b>Weight</b>
4.4 lb./sy.
<b>ASTM Callout</b>
ASTM D-1770 SAE J90, MIL 12803 A & B
<b>Thickness</b>
.006", .010", 1/64", .021", 1/32", 1/16", 1/8"
<b>Sheet Sizes</b>
36" and 51"
