

Flax Mechanical Packing

AP STYLE 650

**CURTISS -
WRIGHT**

AP Style 650

Style 650 is square braided from high quality, long line flax fibers, free from coarse or short fibers. The packing is lubricated throughout with marine fat and paraffin and formed to a medium hardness.

Style 650 Flax packing is designed for cold water and hydraulic oil on reciprocating and rotary pumps and hydraulic equipment. Style 650 is available as individual rings, combination sets, and in bulk.

Typical Properties

Maximum Temperature
220 °F
Maximum Shaft Speed
1,200 FPM
Ph Range
5-9
Construction
Square Braid
