

# Vendor Managed Inventory (VMI) Services

Industrial Management Services

**CURTISS -  
WRIGHT**

Power and Process Services

## Supply Chain Optimization

Vendor Managed Inventory services by Curtiss-Wright deliver customized solutions to power generation plants, petrochemical plants, pulp and paper plants, the mining industry and other types of facilities. As a leading provider of highly engineered products and services, we recognize the value that VMI services can bring to our customers.

Our program involves close collaboration with our customers to understand inventory requirements, which allows us to provide a tailored solution that ensures the availability of critical materials and parts while minimizing excess inventory and related costs. By leveraging our expertise in supply chain management, Curtiss-Wright can help plants achieve operational efficiency, reduce lead times, and operate on a more lean basis. We strive to eliminate complexities and optimize each level of supply chain.

## Products

### *Gaskets and Materials*

- Spiral Wound Gaskets: CG, CGI Change™, Kammprofile™, Style R
- Sheet Gaskets: Compressed, Graphite, Rubber, EPTFE
- Precut Ring and Full Face Gaskets
- Graphonic® Gaskets
- Gasket Rolls: Rubber, Neoprene, Buna
- Felt: Strips, Rolls
- Welding Blankets: Ceramic, Fiberglass, Rubber Coated

### *Packing, Tape, and Tools*

- Bulk Valve and Pump Packing
- Gore-Tex® Joint Sealant
- Fiberglass Tape
- Tadpole Tape: Selective Catalytic Reduction (SCR) Basket, Expansion Joint (EJ) Applications
- Ceramic and Fiberglass Rope
- Packing Removal Tools
