

Flax Mechanical Packing

AP STYLE 650WPH

**CURTISS -
WRIGHT**

AP Style 650WPH

Style 650WPH is square braided from high quality, long line flax fibers, free from coarse or short fibers. The packing is lubricated throughout with marine fat and paraffin and formed to a medium hardness. Style 650WPH is available with a special graphite and tallow compound, making the packing practically waterproof.

Style 650WPH Flax packing is designed for cold water and hydraulic oil on reciprocating and rotary pumps and hydraulic equipment. Style 650 is available as individual rings, combination sets, and in bulk.

Typical Properties

Maximum Temperature
220 °F
Maximum Shaft Speed
1,200 FPM
Ph Range
5-9
Construction
Square Braid
