AP Style 930/931

Style 930 is a textured fiberglass yarn woven into a gasket tape of uniform width and thickness. Style 930 is suitable for doors and lids as well as an insulation material.

Style 931 is the same as Style 930, but is woven with a loose center weave to allow for easy insertion of bolts saving valuable maintenance time. Style 931 is suitable for doors and lids as well as an insulation material.

Recommended Uses

For use on doors and lids as well as an insulation material.

Typical Properties

Maximum Temperature
1,000 °F
Standard Thickness
1/16" through 1/4"
